🎸 ARGuitar — Construction & Assembly Guide

Overview, Measurements & Step-by-Step Instructions for Making Your AR Guitar

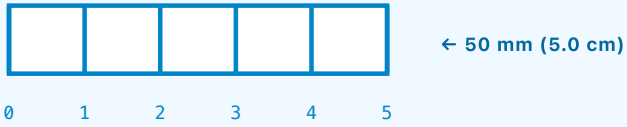

📦 Materials & Tools Needed:

- **Base Strip:** Wood batten, molding, heavy cardboard, or ruler
  Recommended size: ~45–46 mm wide × ~60–65 cm long, ~1 cm thick
- **Standard Printer Paper:** 3 sheets of A4 or US Letter
- **Craft Tools:** Scissors or hobby knife & metal ruler
- **Adhesive:** Glue stick, double-sided tape, or clear packing tape
- **Webcam:** 720p or 1080p camera connected to a computer

⚠️ CRITICAL: 100% Print Scale

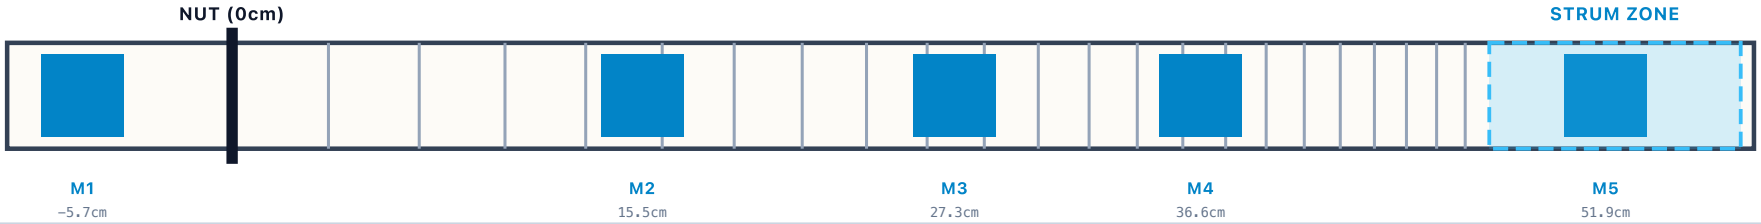

In your print dialog, select **"Actual Size"** or **"100%"**.

Do NOT choose "Fit to Page" or "Shrink to Fit".

Verify each printed sheet against this 50mm test bar.

📐 Complete AR Guitar Layout (Fender 25.5" / 64.8 cm Scale, 46 mm Neck Width):

✂️ Assembly Instructions in 4 Steps:

1. Print Sheets 1 to 3: Verify the 50mm scale box with a ruler. If it is 50mm, your scale is exact.

2. Trim the Cut Lines: On **Page 2**, cut cleanly along the red dashed line at 170 mm. On **Page 3**, cut at 375 mm.

3. Align & Join: Lay Page 2 over the shaded tab of Page 1. Align the red crosshair targets ⊕ and fret lines, then tape or glue.
Repeat with Page 3 over Page 2. You now have a complete, continuous 64 cm guitar neck!

4. Mount & Play: Affix to your wooden strip or card. Hold like a real guitar in front of your camera, launch ARGuitar, and strum!

🎸 ARGuitar — Printable Practice Neck (1:1 Scale)

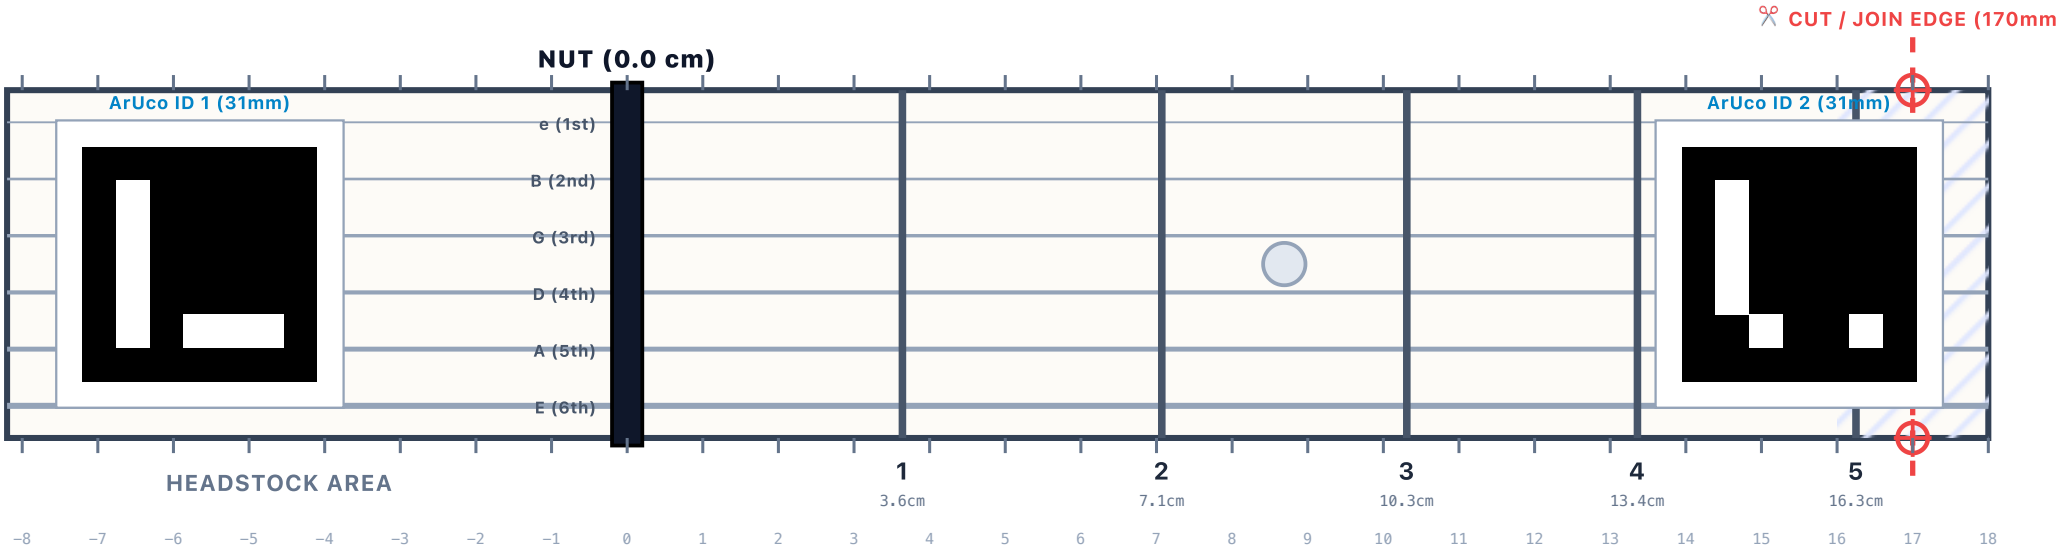

Headstock & Frets 0–5 (Nut, Marker 1 & Marker 2) · Sheet 1 of 3

Print at 100% (Actual Size). Mount on ~45-46mm wide wood strip, ruler, or heavy card.

⚠ SCALE CHECK: EXACTLY 50 mm

0 1 2 3 4 5

Measure bar with ruler: 0 to 5 cm

ASSEMBLY TIP: Cut along the red dashed lines and align the crosshair targets. Glue or double-sided tape onto wood/card.
